

AAISH FAISAL HAMEEDI

AI/ML Engineer | Data Scientist |

📞 03330378408 ✉ hameediaaish@gmail.com 🔗 www.linkedin.com/in/aaish-hameedi-a8480b269
🌐 <https://github.com/Aaish-Developer26> 📍 Karachi, Pakistan

SUMMARY

AI Engineer with over 2.5 years of expertise in machine learning, computer vision, natural language processing, and backend AI integration. Proven track record in architecting and deploying end-to-end AI solutions using Python, Django, FastAPI, TensorFlow, and OpenCV, delivering up to 40% efficiency improvements in production. PIAIC Certified AI Developer and Google Data Analytics Professional, combining robust AI research knowledge with hands-on, production-grade software development in Agile environments.

EXPERIENCE

AI Engineer

Appedology Pvt. Ltd

📅 06/2025 - Present 📍 <https://maps.app.goo.gl/5zuPssS4o4mJUdpd6>
🌐 <https://appedology.com/>

Software Development Company

- Built a **specialty-aware AI medical coding system** that transforms SOAP notes, operative reports, diagnostic reports, and clinical notes into structured **ICD-10, CPT, modifier, and HCPCS recommendations** using OCR, retrieval, and agentic orchestration.
- Engineered a **Graph-RAG-based retrieval strategy** that fused semantic search, knowledge graph links, and deterministic rule lookups, **reducing unnecessary prompt context by ~30-40%** and strengthening explainability for code selection.
- Improved **LLM cost efficiency by ~25-35%** through chunk-level retrieval, specialty-scoped prompts, and selective context assembly, avoiding repeated full-document inference across multi-document submissions.

Jr. AI Software Engineer

Enterprise64

📅 10/2024 - 02/2025 📍 <https://maps.app.goo.gl/VK3M9TuMb5gwEzSQA>
🌐 <https://enterprise64.com/>

Software Development Company

- Developed and deployed AI-driven APIs** using **FastAPI & Django**, improving system efficiency by **30%**.
- Trained and optimized computer vision models** (OpenCV, TensorFlow) for real-time face recognition.
- Integrated AI models into production systems**, reducing manual processing by **40%**.
- Implemented NLP-based chatbot** for internal HR queries, decreasing HR workload by **20%**.

AI Researcher and Developer

AA Joyland (Pvt) Ltd

📅 10/2023 - 02/2024 📍 <https://maps.app.goo.gl/RwdaVSCmrHSuvwQu5>
🌐 <https://aajoyland.com/>

PROJECTS

AI Medical Coder (Genicoder Web App)

📅 2025 - 02/2026
🌐 <https://autocoder.greensensebilling.com/>

Created AI pipeline for medical docs to ICD-10/CPT codes. Developed Graph-RAG, OCR with metadata. Enhanced workflows for coding, reviews, multi-doc validation, ICD hierarchy, bulk CSV/XLSX, code URLs. Enabled scalable generation, code audits, production-ready API integration.

AI-Powered Chatbot For PTO Requests

📅 01/2025 - 03/2025
🌐 <https://github.com/Aaish-Developer26/Speech-to-text-PTO.git>

Developed an **NLP-based chatbot** for managing Paid Time Off (PTO) requests. Implemented **speech-to-text functionality** for voice-based interactions.

Face Recognition Attendance System

📅 12/2024 - 01/2025
🌐 <https://github.com/Aaish-Developer26/Face-Detection-Attendance-System.git>

Built **real-time face recognition** using OpenCV, TensorFlow, and FastAPI. **Trained ML model** on custom employee images to ensure **high accuracy** in different lighting conditions. Integrated with **HRIS system** to automate attendance tracking via CCTV footage.

SKILLS

AI & Machine Learning

Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Neural Networks (CNN · RNN), Model Training & Optimization, Regression & Classification, Predictive Analysis, Large Language Models (LLMs), Token Optimization, Agentic AI

Languages & Frameworks

Python, TensorFlow, PyTorch, OpenCV, Scikit-learn, NumPy, Pandas, SQL, NoSQL, Vector Database, LangChain, LangGraph, RAG, Graph RAG (Neo4j), Vector Databases, LangSmith

Databases & Data Engineering

MySQL, MongoDB, Postgres, SQLite, Firebase, Data Collection & Cleaning, Data Visualization, Microsoft Power BI, Microsoft Excel

Backend & API Development

FastAPI, Django, REST API Design, API Integration, Git, Payment Gateways

Cloud & MLOps

AWS (Learning), Docker (Learning), Model Deployment, API Containerization, CI/CD Pipelines, GitHub Actions

Professional Skills

Cross-functional Collaboration, Agile / Scrum, Technical Documentation, English (Professional), Urdu (Native)

EDUCATION

Masters of science in Artificial Intelligence - MS (AI)

National University of Computer and Emerging Sciences - FAST

📅 08/2025 - Present

Bachelor's in Computer Science

Iqra University

📅 08/2020 - 08/2024

GPA

3.20 / 4.0

Intermediate

St Patrick's College

📅 2018 - 08/2020

O'Levels | Cambridge

Army Public School Saddar

📅 05/2016 - 06/2018

COURSES AND CERTIFICATIONS

Certified Artificial Intelligence Developer

PIAIC - 2 years

Digital Forensics and Cyber Security

IBA - 6 months

Google Data Analytics Professional

Google - 2 months
