SUMMARY

AI Engineer with 3+ years of experience designing, training, and deploying production-grade Machine Learning, Computer Vision, and NLP systems. Currently engineering Agentic AI and Graph-RAG pipelines at Appedology Pvt. Ltd., cutting LLM prompt context by 30–40% and inference cost by 25–35% through retrieval-augmented generation and intelligent context management. Proficient across the full AI lifecycle and model training with TensorFlow and PyTorch, backend integration via FastAPI and Django, and agent orchestration with LangChain and LangGraph. PIAIC Certified AI Developer and Google Data Analytics Professional, pursuing an MS in Artificial Intelligence at FAST-NUCES.

EXPERIENCE

[Appedology Pvt. Ltd](https://appedology.com/) — <https://appedology.com/>

AI Engineer

06/2025 - Present

Software Development Company

- Devised an AI-powered Medical Coding platform to extract clinical data from PDF/image-based documents and generate structured ICD-10, CPT, HCPCS, and modifier codes.
- Built specialty-driven AI workflows with OCR extraction, ICD-10 hierarchy lookup, multi-document validation, and JSON-based code generation outputs.
- Executed bulk CSV/XLSX code generation and audit agent workflows, secure JWT admin APIs, user approval management, and usage-based billing logic.
- Integrated stripe payment gateway for real-time transaction and applied cost limitation strategies.

[Enterprise64](https://enterprise64.com/) — <https://enterprise64.com/>

AI/ML Trainee Software Engineer

10/2024 - 05/2025

Software Development Company

- Enhanced HRIS efficiency by **30%** through AI-based backend workflow development.
- Contributed to the development of Real-time Face Recognition Attendance and System and Employee productivity tracking using CCTV Cameras.
- Expanded and integrated AI-Powered chatbot for PTO requests with HRIS.

[AA Joyland \(Pvt\) Ltd](https://aajoyland.com/) — <https://aajoyland.com/>

AI Researcher and Developer

10/2023 - 02/2024

- Improved CRM automation efficiency by **40%** through AI-powered solutions integrating ManyChat, Zapier, and WhatsApp Business.
- Developed AI marketing solutions to generate social media content by analyzing engagement metrics like interactions, views, comments, and user behavior.

[Luckyhiya Associates Pvt. Ltd](#)

Suit No. 10/31, Arkay Square (Ext.), New Challi, Shahrah-e-Liaquat, Karachi, Pakistan.

Jr. Data Scientist

01/2023 - 09/2023

- Architected ML models for real-estate valuation, boosting accuracy by **15–20%** via feature engineering and hyperparameter tuning.
- Created interactive business intelligence dashboards using Power BI and Excel, reducing manual reporting efforts by nearly **70%** while enabling stakeholders to monitor valuation trends and operational KPIs in real time.

PROJECTS

[Riyadh Real Estate Investment Agent System](#)

<https://github.com/Aaish-Developer26/ksa-real-estate-agent.git>

02/2025 - 05/2025

An enterprise-grade, multi-agent AI pipeline that ingests unstructured real estate listing data from the Riyadh, Saudi Arabia market.

- Built an autonomous, agentic AI pipeline (LangGraph, Lite LLM, MCP Servers, FastAPI, PostgreSQL + TimescaleDB) for Riyadh real estate that automates data analysis, RERA compliance, and reporting — cutting a **6–8 hour** manual workflow to under 5 minutes (over 70× faster).
- Achieved **89% faithfulness** and **91% relevance** via a Ragas evaluation harness, keeping the system accurate on compliance-critical reporting.

PROJECTS

AI Medical Coder (Genicoder Web App) https://autocoder.greensensebilling.com/ Health Care AI Medical Coding - Established AI coding system for medical notes into ICD-10, CPT, etc., using OCR and agentic orchestration. - Engineered Graph-RAG retrieval to cut prompt context by 30–40% and boost explainability. - Enhanced LLM cost by 25–35% via chunk retrieval and selective context, avoiding repeated inference. - Created a subscription and transaction-credit billing model supporting document processing, clinical-note coding, CPT keyword searches, automated renewals, balance deductions, and account top-ups. - Decreased the estimated time required to review lengthy patient reports and prepare coding results by 60–80%.	10/2025 - 02/2026
Real-Time Facial Recognition Attendance and Employee Productivity Using CCTV https://github.com/Aaish-Developer26/Face-Detection-Attendance-System.git Facial detection system for HRIS 2.0 at Enterprise64 uses CCTV and FastAPI for real-time data collection and video processing. Extracts frames, generates embeddings, and matches with employee data for attendance and productivity tracking. - Build AI-driven APIs using FastAPI, improving system efficiency by 30%. - Trained and optimized computer vision models e.g. Mediapipe with OpenCV and TensorFlow for real-time face recognition. - Integrated AI models into production systems, reducing manual processing by 40%.	10/2024 - 02/2025

SKILLS

AI & Machine Learning: Machine Learning · Deep Learning · Computer Vision · Natural Language Processing · Neural Networks (CNN · RNN) · Model Training & Optimization · Regression & Classification · Predictive Analysis · Large Language Models (LLMs) · Token Optimization · Agentic AI · SDLC
Languages & Frameworks: Python · TensorFlow · PyTorch · OpenCV · Scikit-learn · NumPy · Pandas · SQL · NoSQL · Vector Database · LangChain · LangGraph · RAG · Graph RAG (Neo4j) · Vector Databases · LangSmith
Databases & Data Engineering: MySQL · MongoDB · Postgres · SQLite · Firebase · Data Collection & Cleaning · Data Visualization · Microsoft Power BI · Microsoft Excel
Backend & API Development: FastAPI · Django · REST API Design · API Integration · Git · Payment Gateways · WebSocket
Frontend: React · Vue · CORS · HTML · CSS · Bootstrap
Cloud & MLOps: AWS (EC2, S3, Lambda) · Docker · Containerization · Model Deployment · CI/CD Pipeline · GitHub Actions · MLFlow
Professional Skills: Cross-functional Collaboration · Technical Documentation · English (Professional) · Urdu (Native)

EDUCATION

National University of Computer and Emerging Sciences - FAST Masters of science in Artificial Intelligence - MS (AI)	08/2025 - Present
Iqra University Bachelor's of science in Computer Science - BS (CS) GPA: 3.20 / 4.0	08/2020 - 08/2024
St Patrick's College Intermediate	08/2018 - 08/2020
Army Public School Saddar O'Levels Cambridge	05/2016 - 06/2018

COURSES AND CERTIFICATIONS

Certified Artificial Intelligence Developer — PIAIC - 2 years
Google Data Analytics Professional — Google - 2 months
